SBA-CERTIFIED HUBZone Small Business **UEI** PNQ2GFLS9V31 **CAGE** 9S4Q3 **PRIMARY NAICS** 541512

COMPANY OVERVIEW

ARCNET, Inc. is an SBA-certified HUBZone small business providing IT engineering and support to federal and defense programs. Our engineers bring deep Cisco, Linux, Windows, and security expertise, proven in the multi-site data centers we design and operate.

CORE COMPETENCIES

Network engineering

Cisco design led by a CCIE-certified engineer, Palo Alto firewalls, CAC/PKI and 802.1X.

Endpoint engineering

Windows, macOS, and Red Hat Enterprise Linux, built to DISA STIG and CIS baselines.

Cloud & virtual desktops

AWS, Azure Virtual Desktop, VMware Horizon, containers, and Kubernetes.

Service desk

Tier 1–3 support with ITIL-aligned processes and SLA reporting. 24/7 coverage available.

Security & RMF support

NIST SP 800-53 controls, vulnerability remediation, and evidence for RMF assessments.

Infrastructure engineering

Virtualization, storage, and backup at scale, run in our own data centers.

PAST PERFORMANCE

U.S. Space Force · Subcontractor

ARCNET supports a U.S. Space Force program as a subcontractor, providing network engineering.

Federal & defense programs · Subcontractor

Systems, network, and endpoint engineering for federal and defense programs.

City & county governments · Prime contractor

Full IT support, including a ransomware recovery that rebuilt a county's IT, with more than 20 servers and hundreds of virtual desktops, within days.

HUBZONE ADVANTAGE

Eligible for HUBZone set-asides, sole-source awards, and the 10% price evaluation preference. Our work counts toward your HUBZone subcontracting goals.

WHY ARCNET

- Network design led by a CCIE-certified engineer
- Hands-on infrastructure experience from operating our own data centers
- U.S.-based engineers, onsite where the contract requires
- Teams as a subcontractor or HUBZone prime
